## **PROJECTS**

---

### **Right-hand Indicator Car Attachment**

*February 2025 - XXXXX 2025*

- Designed, measured, and calibrated a 5-part 3D printed mechanical housing that enabled right-hand control of a vehicle's turn signal, assisting a driver with a paralyzed left arm.
- Prioritized ergonomic positions for accessibility and quick access, ensuring the mechanism could be easily used without compromising grip or control.
- Created detailed CAD models based on in-vehicle measurements, ensuring an ergonomic fit and seamless integration with existing interior components.
- Printed using the Neptune 4 Pro and refined design through multiple iterations to improve strength, alignment, and user accessibility.

### **Content Creator**

*February 2025 - Present*

- Developed a personal brand and cohesive content style across Instagram, TikTok, Youtube, and X (Twitter)
- Produces and edits videos focused on my journey in creating, designing, CADing, and creative camerawork.
- Designs thumbnails, titles, and metadata to improve click-through rate and discoverability.
- Manages filming, editing using Davinci Resolve, and script-writing to catch viewers attention.
